Collapsed Drifter Cache

General

This level 2 / level 3 relic site signature can be scanned down in HS/LS and class 1-3 WH space and allows you to chose to collect loot for Amarr-, Minmatar- and Caldari- war efforts. The Gallente get their own specific site (lore reasons): Rogue Fabricated Cache
The more valuable versions of this site are the ones in wormhole space.

WH (C1-3) (highest concentration of sites, most valuable loot, level 3 sig)	

Strategy

Arriving at the site, you are presented with 3 hackable containers. Only one of these can be hacked in a specific site, as the other 2 explode instantly when the first can is hacked successfully. Based on the container you chose to hack, the hacks for the according faction will be unlocked:

- **Engineering Initiator** unlocks hacks for the Amarr war efforts
- **Comms Initiator** unlocks hacks for the Minmatar war efforts
- **Logistics Initiator** unlocks hacks for the Caldari war efforts

Rogue Fabricated Cache

General

This level 2 / level 3 relic site signature can be scanned down in HS/LS and class 1-3 WH space and represents the Gallente equivalent of the Collapsed Drifter Cache.
The more valuable versions of this site are the ones in wormhole space.

SARO Surveillance Outpost

General

Level 2 **data** signatures spawning in SARO Black Site systems. These are the systems activated by Vanguard activity.
2 hackable cans.
There's also a Communication Relay structure. It's unknown if it can be interacted with.
It seems (in LS) there are 3 of these sites per affected system and they seem to be on a roughly 20 minute respawn timer.

Infestation Harborage

General

Data hacking signature (level 2) spawning in systems affected by Rogue Drone Outbreaks in Gallente space. 3 hackable cans. Only drops Outbreak Initiation Thread which can be sold to NPC buy-orders for 100k ISK each. Roughly about 10m worth of loot per site.
Rogue drone Outbreaks can be found through the Opportunities window. Look for Interstellar Events.
