General

Finding the sites

Winter Nexus data-hacking signatures spawn in systems affected by [volatile ice storms](#) in [HS](#), [LS](#) and [NS](#).

[LS](#) sites are assumed to be the most valuable ones, followed by [NS](#) and then [HS](#).

Exactly 30 minutes after a site despawns (shortly after hacking), a new signature respawns in the same system.

Unlocking the 2nd canister

In all sites, there's a 2nd canister that only can be hacked if a specific item (from [Yoiul LADs](#)) has been deposited into Sansha's Stormfield Projector.

In [HS](#) sites a Cryostatic Estimator is required to unlock the 2nd canister

In [LS](#) sites a Cryostatic Nullifier is required to unlock the 2nd canister

In [NS](#) sites a Cryostatic Suppressor is required to unlock the 2nd canister

Fits

- [Buzzard](#) (cheap)
- [Buzzard](#) (expensive)

Wightstorm Comms Relay

Level 4 data signature spawning in **HS** volatile ice storms and hosting 1 canister that can be hacked (data) immediately.

The 2nd can can only be hacked after depositing a **Cryostatic Estimator** into Sansha's Stormfield Projector. More info on how to obtain those items can be found [here](#)

Information on loot-runs for these sites can be found [EVE Journal](#).

Strategic node

Level 4 data signature spawning in **LS** volatile ice storms and hosting 1 canister that can be hacked (data) immediately.

The 2nd can can only be hacked after depositing a **Cryostatic Nullifier** into Sansha's Stormfield Projector. More info on how to obtain those items can be found [here](#)

Crypto Facility

Level 4 data signature spawning in **NS** volatile ice storms and hosting 1 canister that can be hacked (data) immediately.

The 2nd can can only be hacked after depositing a **Cryostatic Suppressor** into Sansha's Stormfield Projector. More info on how to obtain those items can be found [here](#)

Information on loot-runs for these sites can be found [EVE Journal](#).

Completing the event-track through non-upgraded NS sites, yields about 1b ISK of loot (on top of the event-track rewards). Takes about 3.5 hours without competition.
