

Current streaming setup (from Sept 2025)

Rig:

- ASUS ProArt X870E-Creator WiFi
- Ryzen 9 9950X3D
- MSI GeForce RTX 5090 GAMING TRIO OC (32GB)
- Kingston Fury Beast, DDR5, 64GB (2x 32GB), 6000 MT/s, CL30
- Samsung 990 Pro NVMe M.2 Gen4 - 2TB
- [be quiet! Pure Power 12M 1000W](#)
- [be quiet! Light Base 600 LX, black](#)
- [be quiet! Dark Rock Pro 5](#)

Screens:

- Samsung Odyssey G9, 5120 x 1440 @ 120Hz via DisplayPort 1
- Some cheap 1080p60hz monitor via DisplayPort 2
- Elgato Prompter

Audio:

- RØDECaster Pro II (all processing off, except gate)
- EV RE27 N/D
- Sennheiser IE 200

Input:

- Attack Shark X3 / SteelSeries Aerox Wireless
- [be quiet! Dark Mount](#)
- 3DCONNEXION SpaceMouse Compact

Camera:

- Sony Alpha ZV-E10 with Sigma 16mm f/1.4 connected to Elgato HD60X
- Elgato Green Screen XL

Light:

- Elgato Ring Light

Other:

- SanDisk Extreme Pro Portable (2000GB)

Software:

- [OBS](#) (for streaming)
- [Supertone Clear](#) (remove ambient noise and room reverb from mic input)
- [TDR Nova](#) (EQ for mic input)
- Limiter and compressor for mic input are done using OBS filters
- [VB-Audio Virtual Audio Device](#) (to route processed mic audio from OBS to Discord)
- [AutoHotkey](#) (to move borderless windows around via hotkey)
- [Process Lasso](#) (to configure CPU affinity, so games always run on CCD with cache and other processes run on the other CCD)
- [MSI Afterburner](#) (to under-volt the GPU)
